Documentation for LabTrove users

Getting started with LabTrove

- Logging into LabTrove
- Finding your way around LabTrove
- Creating and configuring a new eNotebook
- Creating eNotebook entries
 - ◆ Formatting an eNotebook entry
 - ◇ Text styles
 - ◇ Changing the font size
 - ◇ Adding lists
 - ◇ Adding tables
 - ◇ Adding quotes
 - ◇ Formatting code
 - ◆ Using special characters

Recording experiments

- Editing an eNotebook entry and viewing revisions
- Linking to other eNotebook entries
- Linking to external resources
- Uploading data
- Creating a sketch
- Using metadata
 - ◆ Defining the metadata for your experiment
 - ◆ Adding metadata to your entries

Recording repeated processes

- [Creating or selecting a master post for an experiment](#)
- [Creating a template](#)
- [Using a template](#)

Finding items in the eNotebook

- [Using search](#)
- [Using the Timeline View](#)
- [Using URIs, QR codes, and Permalinks](#)
- [Using the Exhibit View \(deprecated\)](#)

Collaborating in LabTrove

- [Adding comments to eNotebook entries](#)
- [Adding comments to images](#)
- [Subscribing to recent activity](#)
- [Using the RSS feeds](#)
 - ◆ [Sending Twitter messages using the RSS feeds](#)

Integrating with other systems

- [Exporting content from the eNotebook](#)
 - ◆ [Exporting an individual post](#)
 - ◆ [Exporting multiple posts](#)
- [Sharing templates using myExperiment](#)
- [Writing plugins for LabTrove](#)
 - ◆ [Using the Rest API](#)
 - ◇ [Adding a post](#)
 - ◇ [Editing a post](#)
 - ◇ [Appending to a post](#)
 - ◇ [Adding data](#)
 - ◇ [Status codes](#)

Reference

- [Accessibility](#)
 - ◆ [Internet Explorer](#)
 - ◆ [Firefox](#)
 - ◆ [Chrome](#)
 - ◆ [Safari](#)
- [XML format for a Post](#)

Documentation for LabTrove administrators

Installing a LabTrove instance

- [Manually installing prerequisite software](#)
- [Installing LabTrove](#)
 - ◆ [Installing multiple LabTrove instances](#)

- ◆ [Installing ChemSpider Plugin for LabTrove](#)
- [Migrating LabTrove from a previous version](#)

Configuring a LabTrove Instance

Administering LabTrove

- [Managing user access and security](#)
 - [Backing up and restoring LabTrove](#)
